Collège des Ingénieurs | Munich

MBA Programme for Engineers and Scientists

Excellence, Impact, and Innovation

The CDI enables engineers and scientists to play a decisive role in **shaping the future** of our world.

The CDI offers a unique learning experience between international scientific peers of **proven academic excellence** who are passionate about their mutual **personal growth** as future entrepreneurs and managers.

With action-based training, intense group interaction and a high-level enterprise project, the CDI enables its Fellows to build their career more effectively and have a **strong impact on industrial innovation!**

Stepping Stone for a Career in Management

The Collège des Ingénieurs is ...

... **exciting** because of valuable teaching content, inspiring personalities and projects that correspond to one's own interests.

... **safe** because it provides a guided transition into the corporate world to avoid missteps or bad decisions.

... **attractive** because of impressive participants and professors; a large, active alumni network; and personalized mentoring.

... **promising** because of the broadened horizons, the MBA degree, the innovation projects, and the active network with top decision-makers.

Learning Through Action

16 weeks of intensive MBA seminars over 10 months:

innovation, marketing, strategy, finance, entrepreneurship, leadership, human resources, masterclasses with CEOs, and more.

9 months within your own company mission (alternating with MBA seminars):

strategy, megatrends, business models, market studies, innovation projects, electromobility, digitalization, industry 4.0, sustainability, life science, assistance to general management, start-up cooperation, and more.

Learning Through Action
